

Integration Guide

Apple Pay & Google Pay

Latest Version Date 11/02/2022

Contents

Apple Pay	3
Google Pay	3

Apple Pay

Please complete the steps outlined in the Developer Centre pages linked below to complete your integration to Apple Pay:

1. General setup & integration steps

- <https://developer.paysafe.com/en/rest-apis/apple-pay/>
- <https://developer.paysafe.com/en/sdks/paysafe-request/paysafe-request-overview/>

Please Note: Once you've registered with Apple and received your Apple Pay certificates, you will need to log into the following Back Office portal - <https://login.netbanx.com/> - using your Business Portal credentials to complete the certificate upload steps outlined in the above Developer Centre links (under "Before You Begin" section).

2. Native in-application integration steps

- <https://developer.paysafe.com/en/mobile-sdks/ios/overview/>
- <https://developer.paysafe.com/en/mobile-sdks/ios/apple-pay-setup/apple-pay-setup/>

Google Pay

Please complete the steps outlined in the Developer Centre pages linked below to complete your integration to Google Pay:

1. General setup & integration steps

- <https://developer.paysafe.com/en/rest-apis/google-pay/>
- <https://developer.paysafe.com/en/sdks/paysafe-request/paysafe-request-overview/>

2. Native in-application integration steps

- <https://developer.paysafe.com/en/mobile-sdks/android/overview/>
