

Integrated Payments for Field Service

Easily & Securely Accept Payments - in the Field or Office

Mobile solution features:

- Sleek and compact device
- EMV-compliant with chip and PIN capability
- Bluetooth and cellular connectivity
- Easily key in credit card information when necessary

Outcomes:

- Increase productivity amongst your technicians enabling them to focus on their core competencies
- Save time by eliminating checks and making trips to the bank
- Boost efficiency across your entire business

ServiceMax has teamed up with Paysafe to simplify your payments and boost efficiency at your business. Directly integrated into ServiceMax, Paysafe's solution allows you to easily and quickly accept payments from customers.

With Paysafe, you can:

Accept various payment types, including chip cards and contactless payments, either online or on a mobile device

Eliminate double entry and reduce keying errors

Process payments securely while keeping your business and cardholder data safe with tokenization and P2PE/3DES encryption

Provide a fresh, sleek checkout experience with powerful customer interaction

Our solution unifies all online and card-present data so you get more visibility into your business - no matter how or where your customers pay.
